This step is the one that catches the most people in the application process. You must show in your letter HOW you showed leadership in leading a group. These **cannot** include positions that you are paid for or get a letter grade for. Think of activities where you directed groups of people, either peers, adults, or younger kids and how you directed them in that activity. Give as many details in your letter as you can and have the letter signed by a supervisor or sponsor. Please **do not** include your name in the body of the letter.
